Subject: Quality Governance Sub Committee paper and the Care Groups minutes

Q1 Please could I request a copy of the Quality Governance Sub Committee paper which would have outlined the requirements from the BPNA consensus statement and the Care Groups minutes when this was discussed for it to be accepted by the hospital?

The specific data I am requesting is the recommendations from the Quality Governance Sub Committee which would have outlined the guidance from the BPNA consensus statement for them to be implemented within the Hospital along with data which shows the Care Groups rationale for approving the recommendations.

If the trust uses a different Governance process for approving new policy please could you provide me with details on what ratification process was taken and how this guidance was approved for use in PANS/ PANDAS cohort of patients? If possible please could you ensure the names or job title and dates are included to show who approved the policy and when it was approved and adopted?

A1 Information not held – we do not hold any notes where guidance from the BPNA consensus statement was discussed and implemented
