From: Private Individual
Date: 29 November 2021
Subject: Covid-19 unvaccinated staff, staff absence and healthcare acquired infection

Q1 How many NHS staff currently working at your trust remain unvaccinated? Including bank/agency workers.

A1 193

Q2 What percentage of your overall staff does this equate to?

A2 5% of total work force

Q3 With your data from staff absence due to Covid19, contact tracing and Healthcare acquired infection (HCAI), what percentage of HCAI is directly attributable to Covid19 infection in NHS frontline staff?

A3 To date the Trust have 0% of HCAI directly attributable to Covid19 infection in NHS frontline staff

Q4 If not directly attributable, do you have data that shows inpatients on non Covid19 wards getting a HCAI and becoming infected with Covid19 within 7 days of an NHS worker on that ward testing positive for Covid 19?

A4 The Trust does not have the capacity to have COVID and Non COVID wards. Following investigation of all HCAI we have had no proven transmission either between staff to patients or patient to patient.
