

Next, they will chat with me and ask me questions about my life. I can ask questions too.

I might do some activities with pictures. There will also be interesting things for me to look at.

Once we have finished we will say goodbye & I can go back home or back to school.

I am going to visit Alder Hey Hospital. I might walk, take the bus, take a taxi or go in the car.

When I get to Alder Hey, I will wait in a room that looks like this. I can bring things to do so I don't get bored.

Me and the adult I came with will then go into a room that might look like this:

First the speech therapist might talk to the adult that brought me.

I will know it's my turn because a speech therapist will call my name & say hello.

I will know I am in the right place because the building will look like this:

I will see a speech and language therapist. Their job is to chat and learn about young people like me.

I can play, draw or read when the adults speak.
