Back of head

Top-down view

Left side of face and head

Right side of head

Tips:

- Take the pictures with your child's hair wet so that their head shape is not camouflaged by their hairstyle e.g. in the bath
- Move clothing so that it does not cover any part of the face
- Try to take the picture so it is level with the floor; not tilted up or down
- Make sure your child's head is in the centre of the photo
- Make sure your child's head and face take up most of the photo
- Take the photo against a plain background
