Subject: Cost relating to Acquired Brain Injury (ABI) conditions

Please provide information regarding cost of care for conditions relating to Acquired Brain Injury (ABI) conditions for patients in a level-3 neuro-rehab facility who are occupying an in-patient bed

- Q1** Spot Purchase Price - In Area – This is classified as the prevailing (latest 2023) daily fee charged by you to the ICS for providing care to an individual who is from your ICS region and is occupying a bed under an immediate requirement and is not contracted for and is made 'on the spot'.
- A1** Information not held – We do not charge a daily fee this would be covered by a total tariff charge once the patient has been discharged.
- Q2** Spot Purchase Price – Out of Area – This is classified as the prevailing (latest 2023) daily fee charged by you to the ICS for providing care to an individual who is an out-of-area patient from another ICS and is occupying a bed in your trust but is paid for by their home ICS, under an immediate requirement and is not contracted for and is made 'on the spot'.
- A2** Information not held – We do not charge a daily fee this would be covered by a total tariff charge once the patient has been discharged.
- Q3** Block contract – This is classified as the average amount spent per individual under a contract that you agree upon as a trust with your home ICS to provide care for an individual needing an inpatient bed for an acquired brain injury treatment in a level-3 neuro-rehab facility.
- A3** Information not held – no block contract in place
- Q4** Overall Average (in £) – The overall average cost of a patient that occupies a bed in a level-3 neuro-rehab facility.
- A4** £4,191 for an expected length of stay of 5 days.
