

Reference Number: FOIAH2324/452
From: Private Individual
Date: 14 November 2023
Subject: Out-of-area (OOA) placements and a delayed transfer of care (DTC) for Acquired Brain Injuries (ABI)

I would like to research the number of out-of-area (OOA) placements as well as the number of people with a delayed transfer of care (DTC) in an in-patient setting for the following condition:

i. Acquired Brain Injuries (ABI) condition – Patients in a level-3 neuro-rehab facility in-patient bed.

Q1 Out of Area Placements (OOA) cases as of Oct 31st (or latest available)

A1 Information not held – the Trust does not routinely collate or hold this information centrally as part of its management or performance data. In order to ascertain the data the Trust would be required to access personal data of the individuals and as such the data is exempt under Section 40: Personal data.

Q2 Delayed Transfers of Care (DTC) cases as of Oct 31st (or latest available)

A2 Information not held – the Trust does not routinely collate or hold this information centrally as part of its management or performance data. In order to ascertain the data the Trust would be required to access personal data of the individuals and as such the data is exempt under Section 40: Personal data.
