Subject:	Clinical Systems

Q1   I am doing research into hospitals' use of patient information systems. In line with this, please could you answer questions 1-4 for EPR/ EHR, theatre management, bed management, patient engagement platforms, appointment booking systems, patient tracking list / dashboard, ED management systems you use to manage patients and patient clinical notes in your trust?

1. Name of the system and system provider
2. Annual amount spent on the system
3. What is the annual budget/ spend on staff training on these systems and software?
4. How long was the implementation process from time of procurement to launch date?
5. Does the trust use an integration engine to securely exchange data between these software systems, both internally and externally? If so, what is the name and supplier of this system and what is the annual amount spent on this system?
6. What is the annual amount you spent on any management consultant and/ or advisers engaged to support implementation and maintenance of the EHR and/ or PAS?

A1   Please see attached – 111 FOI Response Table

Please could you answer questions 1-4 for EPR/ EHR, theatre management, bed management, patient engagement platforms, appointment booking systems, patient tracking list / dashboard, ED management systems you use to manage patients and patient clinical notes in your trust?
