Subject:	Cyber Security

Q1   How many times has your organisation experienced an attempted cyber-attack in the last two financial years?

A1   Zero

Q2   Have you ever reported any cyber-related incidents to the NCSC and if so, how many in the last two financial years?

A2   Zero

Q3   Thinking about cyber-attacks where the criminal was able to obtain data or disable systems, how much have these cost the organisation?

A3   Information not held – as per A1 and A2

Q4   How much of the organisation's total annual budget is spent on cyber support, protection and computer systems?

A4   £210k as a dedicated cyber budget, which includes resource and cyber toolsets. It will exclude figures for standard operating software and appliances like Anti-Virus/End Point Protection and Firewall protection.

Q5   How many people are employed by the organisation to oversee cyber support and programmes?

A5   The establishment for the Trust's dedicated Cyber Security Team is two, additional capacity and resource for cyber security is provided through other roles within the Trust's Digital Department. Actual figures not held as the support forms part of their wider roles.
